

Fan

A series 100 series

Description

Description:

Rosenberg AC-Axial fans in combination with voltage-controllable external-rotor motor form a very compact, efficient and optimized fan unit. They impress with low installation depth and low noise level. Fast start-up is ensured because of well-integrated components.

Applications:

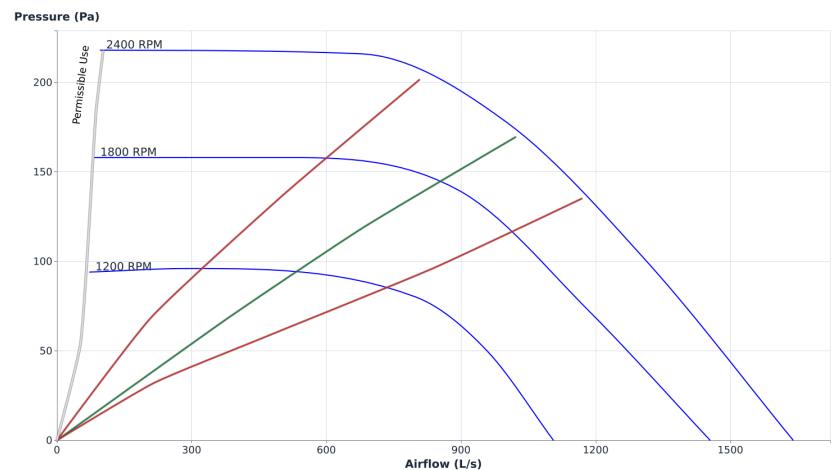

Air heaters / Heat pumps / Condensers / Cooling units / Evaporators / Chillers Sizes: 400, 450, 500, 560, 630mm diameter Fan

Performance: The fan is of low noise and high static efficiency design. The impeller is designed to give excellent performance characteristic with high static pressure development without stall.

Applications

Not provided.
